ECL MOBILE MOBILE LABORATORIES

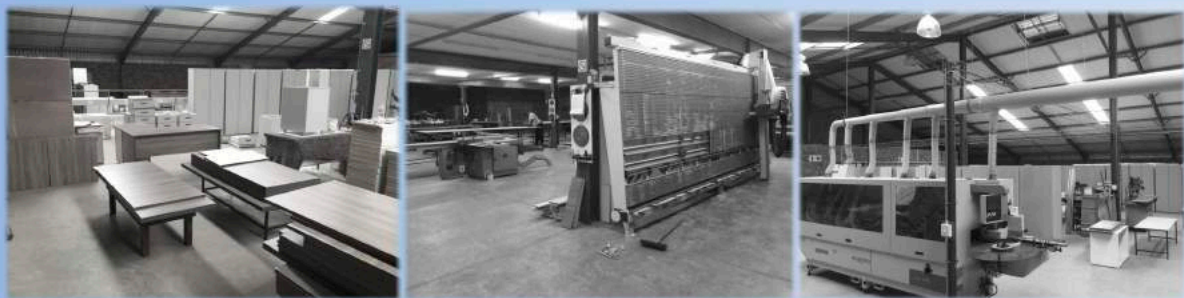

Your Access to a Laboratory in the Remotest of Locations

In the mining sector, this novel use of the mobile laboratory brings sample analysis to your site ensuring fast turnaround and accurate, reliable geochemical and assay data. The same concept can be applied in other fields such as Petroleum testing, water testing and environmental bioassay testing.

ECL Offers you a fully finished mobile laboratory that is either fully housed within or transported by a vehicle such as a converted Truck, carrier vehicle, trailer or Container.
